

Open Applications Group

Open Standards that Open Markets™

Hi and welcome to our May 2011 newsletter. We hope you are all well. If you are not a member of OAGi, we encourage you to join.

Among the many benefits of membership, members receive a 20% discount off our OAGIS training and services. You can review the all of the benefits of OAGi membership [here](#).

OAGIS Release 9.5 is now Generally Available!

We are pleased to announce that OAGIS Release 9.5 is now generally available.

This release contains the Logistics content from the High Tech Council, the Procure to Pay work from the Metals Council, the Warranty Claim from the Partner Council, and enhancements to the Production Order to enable it to also serve as a Work Order.

The New Nouns include:

1. Warranty Claim
2. Commercial Invoice
3. Shippers Letter of Instruction
4. Hazardous Material Shipment Document
5. Export Declaration

In addition, we have revised all of the Scenarios and added many new ones to support the new functionality added.

We are very excited about this release of OAGIS and thank the OAGi Members and Staff for their hard work in getting it ready to ship.

You can download the release under the Downloads and Resource menu on our website: www.oagi.org.

Spring Plenary and Working Group Meetings a big

Our Spring 2011 Plenary and Working Group meetings held on Wednesday and Thursday, April 20-21 on the NIST campus in Gaithersburg, Maryland were a big success.

This was our 10th Anniversary of hosting by the US National Institute of Standards and Technology and we celebrated with a cake. You can see some of the pictures on our web site [here](#).

We had many terrific presentations on Cloud and B2B as well case studies from our members, including Cisco systems, and possibly the highlight, the Panel discussion on Cloud and B2B. Our panel was comprised of veteran in the field, from end-users to solution providers.

This meeting also had 9 persons from the CIDX organization, our largest showing since the merger.

You can download the presentations from the meeting [here](#).

High Tech Council Trade Compliance Webinar a big success

On April 21st the OAGi High Tech Council hosted two webinars entitled "Introduction to Global Trade Compliance". The webinars were held at both 7 AM Pacific time and 4 PM Pacific Time.

In this webinar, the basics of Global Trade Compliance were discussed, along with a conversation about its increasing importance in organizations today. We had tremendous attendance and we thank all who made this webinar series a success.

You can download the presentation from the webinar [here](#).

OAGi Staff give a talk at a Canonical model Conference

David Connelly and Ralph Hertlein of OAGi staff attended and spoke at the Canonical Model conference sponsored by one of our members, IgniteXML (www.igniteXML.com).

The title of the talk was to introduce people to the thought of starting with OAGIS when building an organizational Canonical Model.

You can download the presentation [here](#).

OAGi Chemical Industry Council Gap Analysis for OAGIS X

The OAGi Chemical Industry Council is making excellent progress on their gap analysis of the existing Chem eStandards to OAGIS. They have had good participation that is growing.

We expect this work will continue over the next few months and we are looking forward to the results. The OAGIS Release 10 Working Group will include these requirements into their work to ensure that OAGIS Release 10 will meet the needs of the Chemical Industry when it is released.

If you would like more information or to join this or any of our Working Groups, please write to us [here](#).
